STABILIFORCE SYSTEM – INCLUSIONS

Certified patented technology

EXCLUSIVE CANADA MARKETING RIGHTS

STABILIFORCE PRESS

Provided under licence

N° PRESSE STABILIFORCE

Ultra robust and durable

The robust and durable jaw mechanism for pile-driving is designed to outperform competitors' standards.

Does not slip or jam, which allows for a constant driving force.

HYDRAULIC CYLINDERS

Stainless steel handles

N° CYL-HYDRO-20

LOCK PINS

1" pin with red handle

N° PIN-1X4.5PO

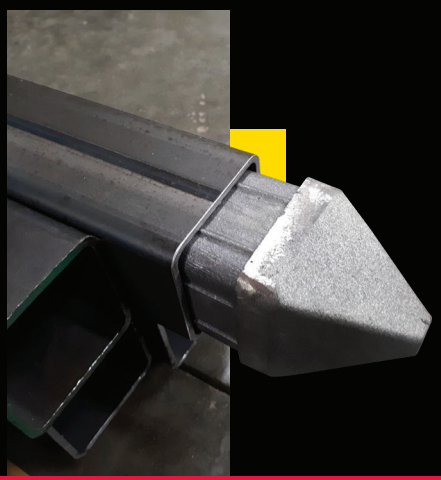

HYDRAULIC HOSES

5000 psi, 3/8" x 8'
with quick couplers

N° HOSE-HYD-06X080-1

Lifting brackets, piles, and points

StabiliForce Technologies ensures it has the equipment required for piling in stock and that orders are delivered quickly.

All lifting bracket models areWSP-approved with a safety factor of 2 for 80,000 lb

SOLD SEPARATELY IN SETS OF 22 UNITS.

Hydraulic Cylinders

STABILIFORCE SYSTEM – INCLUSIONS Certified patented technology

COIL NUTS

N° COIL-NUT

COIL RODS

N° COIL-ROD

SUPPORT BRACKET

Used for straightening

N° LEVAGE-SUP

STABILIFORCE CYLINDER

12" hydraulic cylinder;
2 1/2" rod; 58,000 lb
with handles, heavy-duty
plate and quick couplers

N° CYL-HYDRO-12

LIFTING ATTACHMENTS

Used for straightening

N° LEVAGE-ATT

LOCK PINS

Pin 1" avec poignée rouge

N° PIN-1X4.5PO

HYDRAULIC HOSES

5000 psi, 3/8" x 8'

Installation, lifting, straightening, and stabilization of buildings

The StabiliForce system allows businesses in the residential, agricultural, commercial, and industrial sectors to offer services, such as straightening and stabilization of new and existing buildings, underpinning, and pyrite decontamination.

For example, straightening of this residential building required lifting the building more than 10".

Hydraulic Power Unit

STABILIFORCE SYSTEM – INCLUSIONS Certified patented technology

REMOTE CONTROL

Remote with 60' cable, up/down, start/on/off controls

N° TELECOMMANDE

2x

HYDRAULIC HOSES

5000 psi, 1/2" x 60' with swivel "T" fitting

N° HOSE-HYD-08X600

56x 56x

ALUMINUM CAPS

with chain

Female 3/8" — N° CAP-ALL-F-3/8

Male 3/8" — N° CAP-ALL-M-3/8

1x

HYDRAULIC POWER UNIT

Engine : Honda GX 340
Max. pressure: 3000 psi

N° UNITE-HYDRO

HONDA ENGINE GX 340

2x

HYDRAULIC OIL

5 gal

N° HUILE-HYDRO

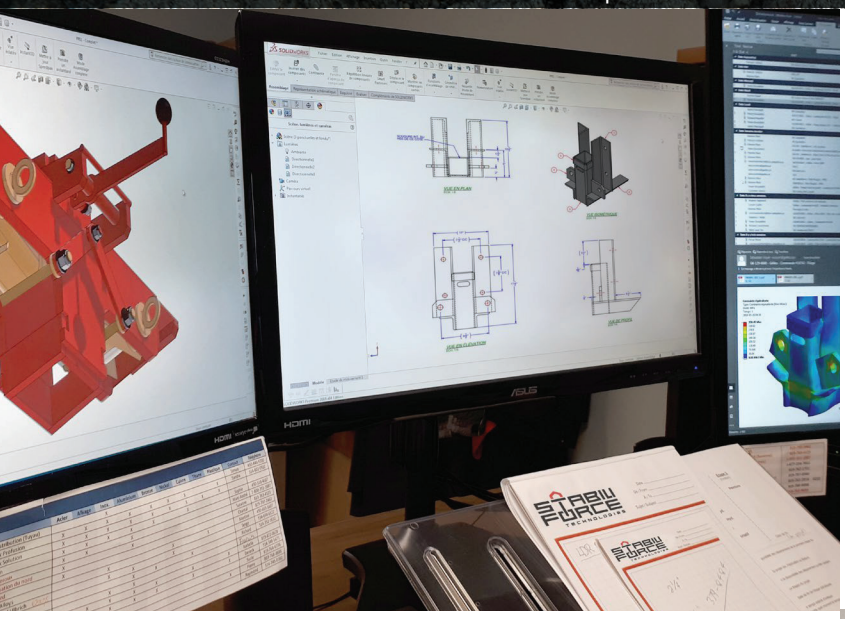

CUSTOMIZE YOUR TRAILER WITH STABILIFORCE

Make your territorial exclusivity known! In addition to being a great advertising medium, the trailer will add credibility to your work and projects. StabiliForce Technologies also provides production files that are ready to be adapted to your trailer by your local letterer.

Design and Manufacturing

Certified patented technology

Proven Design

CERTIFIED QUALITY

Our team, comprised of engineers, 3D designers, and hydraulic systems specialists, has designed a complete system to develop unique expertise in building straightening and stabilization.

Recognized worldwide, *WSP Engineering* analyzes all lifting bracket models to ensure they meet the highest resistance standards.

Custom Manufacturing

TO MEET YOUR REQUIREMENTS

Each StabiliForce cylinder is designed and manufactured by *Custom Cylinder* according to our requirements. The quick locking system and carrying handles are factory installed.

Transport Cases

TO ENSURE SAFE DELIVERY

As all companies have different realities, StabiliForce offers additional accessories to allow you to personalize your storage for the system.
